

# pipe

## USAGE INSTRUCTIONS

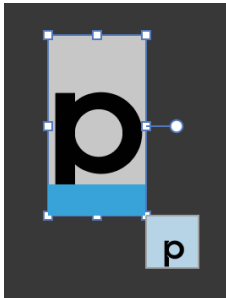

1

Two font files available for download:

- **PIPE**
- **PIPE NOTCHED**

2

To access alternate letterforms, highlight the letter, and a dropdown icon should appear. If you are working in Adobe programs, you may also access alternates in the GLYPHS panel. (These techniques have been tested in Adobe programs)

**SEE NEXT PAGE**  
FOR A WALK-THROUGH GUIDE  
TO USING THE GLYPHS WINDOW.

3

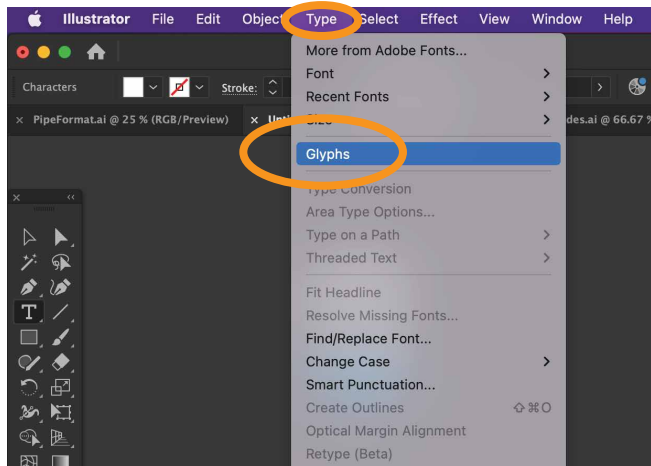

If you CANNOT access the alternate letterforms **listed below**, use the “Pipe Notched” font version. This will ensure the notched letterforms appear automatically when typing.

**abdglnpqr rtuA**

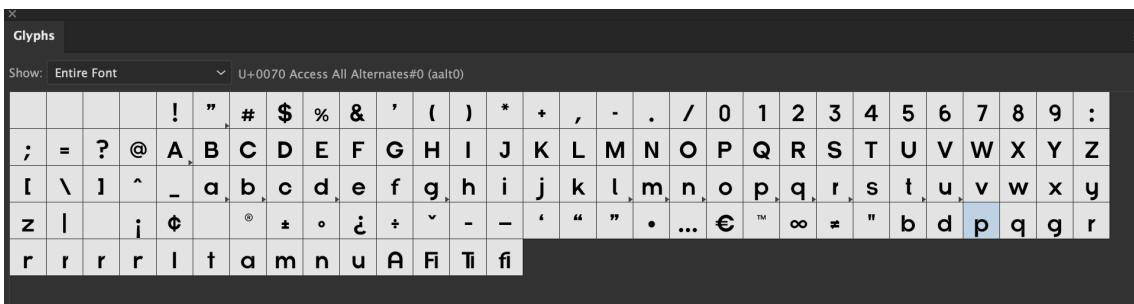

\*ALTERNATES NOT AVAILABLE IN “LIGHT” FONT STYLE

# USING THE “GLYPHS” PANEL (Adobe programs):

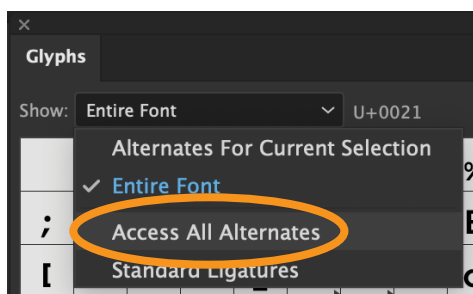

## 1. Go to TYPE - GLYPHS

## 2. This will reveal ALL letterforms in the font

## 3. Click the dropdown menu next to “Show” and select “Access All Alternates”

## 4. This will filter all available alternate letterforms. Hope this helps!

# Thanks for downloading!
